

Where is the plan to stop this human rights scandal?

#HumanToo #StrippedofHumanRights

The latest data shows there are

at least 2,270

people with a learning disability and/or autism in inpatient units.

NHS Digital Assuring Transformation data, June 2019

Shut away for too long

People with a learning disability and/or autism who are sent to inpatient units are there for an average of

5.3 years

NHS Digital Assuring Transformation data, June 2019

At risk

Last month

There was the highest ever number of reported uses of restrictive interventions within one month

3,075

including **physical, chemical, mechanical restraint** and being **kept in isolation**.

Of these, **770**

were for **Children** (under 18s)

NHS Digital MHSDS Data: March 2019, published June 2019

This month

NO DATA HAS BEEN PUBLISHED ON RESTRICTIVE PRACTICES IN INPATIENT UNITS

Children and young people in units

Under 18s

The number of children with a learning disability and/or autism in inpatient units has **increased**.

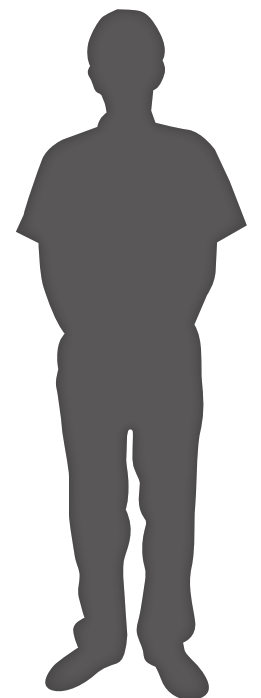

245

June 2019

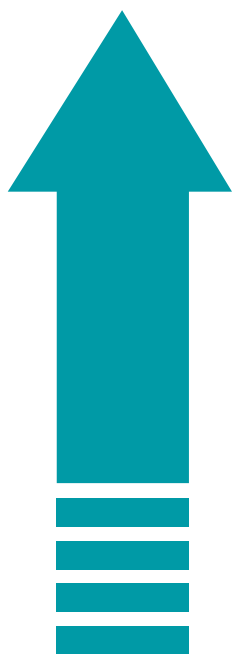

110

March 2015

NHS Digital Assuring Transformation data, June 2019

Numbers have gone up

2,270

June 2019

2,250

May 2019

2,245

April 2019

The Government missed its target to reduce the number of people with a learning disability and/or autism stuck in inpatient units by 35-50% by the end of March 2019.

This is the **second monthly increase** in the number of people locked away since the targets were missed.

NHS Digital Assuring Transformation data, April 2019, May 2019 and June 2019

Where is the cross-government strategy?

There is still **no robust plan** with leadership across government to ensure **health, social care, education** and **housing** work together to get people out of inpatient units and back into their community.
