

Challenging Behaviour - National Strategy Group (CB-NSG)

Monday 27th June 2022

Workshop 3: Collaborative working to meet health needs in the community: Family carers and Learning Disability nursing working together

Workshop Facilitators: Jonathan Coady-Mayall/Jackie Clarke

Time: 11.25 - 12.35 am session, 14.20-15.30 pm session

The aim of the workshop is to:

- Discuss collaborative working in the community to meet the health needs of people with a learning disability including how this can work, what is needed and how this relationship can be improved.
- Illustrate this by sharing findings from a recent workshop with families and learning disability nurses.

The objectives are to:

- Identify the importance and challenges of collaborative working with families and co-produce potential solutions.
- To discuss experiences of collaborative working to meet health needs in the community, what works well? (Best practice examples) and the challenges.
- To identify ways in which collaborative working in the community can be improved and agree actions to take this work forward
- Share and discuss outcomes from a recent workshop with families and learning disabilities nurses and gather feedback and ideas for developing and progressing this project.

Background

We know collaborative working is crucial to ensuring the health needs of people with learning disabilities are met. Professionals and families of people with learning disabilities often want to work better together to meet their needs. This workshop is

designed to take a look at how we can make things better, to help to co-produce and navigate services and to enable mutual understanding.

In May we ran a pilot workshop for families and learning disability nurses. We will be sharing feedback and next steps from this workshop.

Workshop agenda

- 1. Welcome and introductions (5 minutes)**

- 2. Presentation to give the background and context for this work (15 minutes)**

- 3. Group discussion: (30 minutes)**

- 4. Actions (20 minutes)**

(To be completed after workshop)

What is needed	How it will be done	Who will do it	When it will be done
