

Challenging Behaviour – National Strategy Group (CB-NSG)

Thursday 24th November 2022 via Zoom

Workshop 12:

Delivery UK-Wide

Workshop Facilitator: Linda Hume

Time: 2pm-3pm

The aim of the workshop is:

- To identify and build on good practice and progress in each of the four countries of the UK
- To identify what is needed to make this action plan relevant and deliverable to the whole UK
- To identify UK-wide opportunities

The objectives are:

- To identify legal/statutory/guidance-related differences between England, Scotland, Wales and Northern Ireland, and what is needed to ensure that the actions are relevant and applicable to all
- To consider regional initiatives and whether it might be possible to expand these
- To share examples of good practice from across the UK, and to consider how these might be embedded elsewhere in the UK
- To share knowledge and expertise

Background

To ensure that this co-produced action plan works for everyone with a learning disability, it is important to make sure that it is relevant across the whole of the UK. To do this, we need to identify differences and similarities between the four constituent nations, looking at the differences in law, in bodies, in practice, etc.

This CB-NSG meeting also gives us the opportunity to bring together people from across the UK to share knowledge, expertise, and examples of good practice/good initiatives/ideas that might be replicated and deliver good outcomes.

Questions for Workshop – Barriers, Issues, Opportunities

1. What differences are there between the four constituent nations that we need to be conscious of when co-producing this action plan?
2. What opportunities are there for replicating/disseminating any regional/national ideas/initiatives that could work elsewhere?
3. Are there any particular barriers/issues that might make it difficult to deliver this plan across the UK? How do we overcome these?

Workshop agenda (Timings TBC)

1. **Welcome and introductions**
2. **Background and context for this work**
3. **Group discussion**
4. **Actions**

Actions: (To be completed during workshop)

Action: What is needed	How it will be done	Who will do it	When it will be done
